Width	15.4in (40 cm)
Depth	15.4in (40 cm)
Weight (unladen)	91lbs (41.2kg)

Power

Voltage	120 V 60Hz
Heating watts	500W
Operating watts	480W

System Specifications

Working Temperature	59F - 104F (15C - 40C)
Working Humidity	35% - 95%
Water Storage Capacity	3 gallons (12.5 Liters)
Hot Water range	167F - 199F (75C - 93C)
Cold Water range	37F - 50F (4C - 15C)

Water Harvester 75

Harvesting pure drinking water from the Air

SERVICE SOLUTIONS

We back our products 100%. The Water Harvester 75 comes with a full year warranty and three year on the compressor. To ensure the purest water possible, we offer an onsite service agreement that covers filters, UV lamps, coil cleaning, refrigerant, tank and line cleaning for a nominal charge.

FEATURES

Digital Display – offers easy to read graphics and monitoring of all working components and settings

Electronic sensors – Found on all critical components alerts when malfunctioning

Energy Efficient – Automatically turns off when storage capacity has been achieved

Electrostatic air filter – Removes airborne particles and returns clean air into the surroundings

7 stage water purification system – guarantees pure safe chemical free drinking water

Easy maintenance – All filters are equipped with quick disconnects

Hybrid – in areas of low humidity can be connected to municipal water

Child lockout – Special button combination to prevent scalding from hot water

Temperature control – adjust cold setting from 39 – 50F, hot setting from 169 – 199F

Easily transportable – on wheels to make moving from room to room effortless

Beautiful design – complements any home, office or business

Quiet operation – Lower db levels than other Atmospheric water appliances.

Leak protection – The Water Harvester will shut off when a leak is detected.

Anywhere, anytime...

Everyone deserves pure water

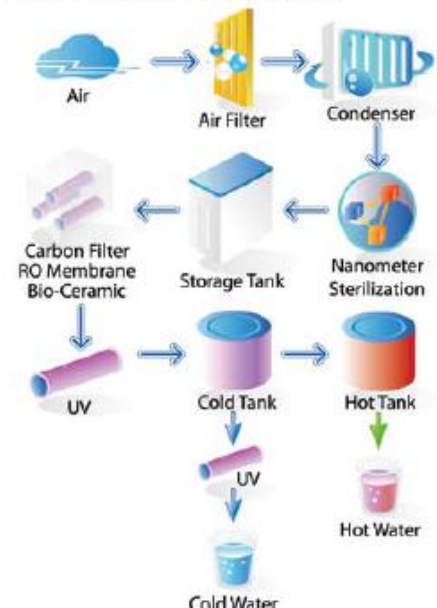

HOW IT WORKS

Why Atmospheric Water

- No external water source
- No bottles to store (full or empty)
- No deliveries
- No CO2 released into the air from deliveries
- Saves money over bottled water
- Portable
- Cleans your air
- Dehumidifies for better comfort
- Oxygenated water
- Reduces stress on our natural water resource
- Convenient – make your own water on site

An Inside Look

A look inside the purification process reveals how pure, safe, chemical free water is available from the air.

Water Source Technologies (WST) is a leader in bringing you innovation, conservation and environmentally friendly products which can help you to **reduce your footprint and improve your quality of life.**
